Cell: +27 72 089 0762

## SKILLS

### FRAMEWORKS AND LANGUAGES

- **React, Next.js and TypeScript**
- Version control and collaboration using **GitHub/BitBucket**
- Design libraries and tools such as **TailWindCSS** and **Chakra UI**
- Using AI tools such GitHub Copilot and ChatGPT
- Miscellaneous - Google Document Suite, Microsoft Suite, OBS

## SOFTWARE PROJECTS

I'm enthusiastic about connecting with fellow developers, exploring and building projects with modern technologies such as Express, Firebase and Three.js while working with AI tools such as CoPilot and ChatGPT

 <https://github.com/WagnerA117>

## COMMUNICATION

- **Fluent in English** with strong reading and writing skills. Solid understanding **Afrikaans** in spoken and written form
- Excellent interpersonal skills, able to **listen** and incorporate input from others while working in collaborative environments
- Experienced with **Jira**, **Confluence** and **Trello** to implement **agile** methods such as the Kanban method

## PERSONAL INTERESTS

- Enthusiastic **artist** in my spare time, focusing on pencil, watercolour and film photography
- Brazilian Jiu Jitsu

**References on request**

## PROFILE

I am a **React Software Developer** with a strong focus on **front end development** and design, with experience and interest in various full stack technologies.

My background is in education, having studied mathematics for several years before completing a **Bachelors in Education(Senior Phase)** and transitioning into software development, initially by teaching coding courses before working as a software developer. I'm always interested in the human aspect of software development, whether it's in the design and layout of a website, or the choices made in tailoring a project to best fit a client's needs.

My aim for the future is to focus on front end development, incorporating my enjoyment of design and art to create accessible, performant and engaging experiences for users.

## EXPERIENCE

### FRONTEND DEVELOPER SECURITEASE – FEB-2024-PRESENT

Working in FinTech for various banks in Australia, New Zealand and South Africa. With a strong focus on creating robust, well tested accessible user interfaces using **React, TanStack** Software, with **Jest** and **Playwright**, while regularly engaging in code review and documentation creation

### FRONTEND DEVELOPER ACCENTURE SONG – NOV 2023-FEB 2024

Recruited by Accenture Song to work on client facing portals for Audi UK, using React, Styled Components and **Jest** and **React-Testing-Library**.

### FREELANCE SOFTWARE DEVELOPMENT – FEB 2023 - NOV 2023

- **ModuIR** - Developing various projects using Express.js, **Next.js**, **TailwindCSS**. Using tools such as **TanStackQuery** and **Zod** to create type-safe and robust code.

### REACT DEVELOPER AT MEETINGPAL (WEBINTELLECT) – APRIL 2022 - JAN 2023

Using **React, Javascript, TypeScript, Meteor** and **MongoDB** I assisted in developing features required to adhere to remotely managing body corporate meetings.

### CODECOACH AT CODESPACE – JULY 2021- APRIL 2022

Developed courses and documentation for **JavaScript, HTML, CSS** and Sonic Pi,. While also teaching programming courses the languages mentioned, to a wide variety of learners with differing technological backgrounds and ages. Responsibilities included recording videos, creating projects and tasks, teaching classes and updating curriculum courses.

### EDUCATION STUDENT AND MASTER MATHS TUTOR – 2015-2021

- Master Maths from Feb 2015 to Jan 2017. Teaching Maths and Science to high school learners.
- Student teacher for 6 months during course of studies during which I taught classes and aided teachers fulfil various responsibilities.

## EDUCATION

- **Bachelor of Education Intermediate and Senior Phase** at Stellenbosch University **2017-2020**
- BsC Maths and Physics at Stellenbosch University **2013-2014**
- Self Study, Peer learning and Projects **2018- Present**
